INTRODUCTION

On the rolls of this microfilm publication are reproduced the compiled service records of soldiers who served in the American Army during the Revolutionary War. The compiled service records consist of one or more jacket-envelopes for each soldier containing card abstracts of entries relating to that soldier from original records. These compiled and original records are part of the War Department Collection of Revolutionary War Records, Record Group 93.

The American forces during the Revolutionary War included many types of military organizations created by the Continental Congresses, the States, towns, and counties. The Regular units authorized by the Continental Congresses formed the Continental Army, but this Army was frequently supplemented by units of militia and volunteers from the States. The compiled service records reproduced in this microfilm publication contain records for the Regular soldiers of the Continental Army and for the militia, volunteers, and others who served with them. The larger entity is referred to in this publication as the American Army.

In 1775 the Continental Congress took command of the forces of the New England colonies besieging Boston and instituted the first of a series of major reorganizations of the Army. In resolutions of November 4, 1775, the Continental Congress authorized the establishment of a Continental Army of 20,372 men. Each regiment was to contain 728 men, divided among eight companies; and each company was to consist of a captain, two lieutenants, an ensign, four sergeants, four corporals, two fifers or drummers, and 76 privates.¹ Additional regiments, sometimes containing fewer men, were authorized by the Continental Congresses for such purposes as the Canadian campaigns² and the defense of the Southern States.³ Many of the authorized regiments in this and later reorganizations were never completely filled.

Another major reorganization of the Army was authorized in resolutions of September 16, 1776. The Continental Congress ordered the enlistment of 88 battalions (or regiments) for the duration of the war and apportioned those battalions among the States as follows: New Hampshire, three; Massachusetts, 15; Rhode Island, two; Connecticut, eight; New York, four; New Jersey, four; Pennsylvania, 12; Delaware, one; Maryland, eight; Virginia, 15; North Carolina, nine; South Carolina, six; and

Georgia, one. The States were to recruit the soldiers and appoint the officers for their battalions, although the officers would be formally commissioned by the Continental Congress.⁴

In 1778 the Continental Congress authorized the reduction of the Army to 80 battalions, each containing 585 men.⁵ In October 1780 the Congress further reduced the Army by ordering that, after January 1, 1781, the Continental Army consist of four regiments of cavalry or light dragoons, four regiments of artillery, 49 regiments of infantry (excluding Colonel Hazen's regiment), and one regiment of artificers.⁶ Finally, the Continental Congress on June 2, 1784, directed the commanding officer to discharge all the troops in the service of the United States, retaining only 80 privates, with a proportionate number of officers, to guard the stores at Fort Pitt, West Point, and other magazines.⁷

A typical infantry regiment in the Continental Army, generally referred to in this publication as a regiment or battalion without the designation "infantry," might contain field officers, such as a colonel, lieutenant colonel, and major; a regimental staff, including an adjutant, quartermaster, surgeon, surgeon's mate, paymaster, and chaplain; and eight to 10 companies.

Cavalry and artillery regiments were organized in a similar way, although cavalry companies were frequently called troops. Artillery companies included specialized soldiers, such as bombardiers, gunners, and matrosses. The soldiers in artillery regiments often functioned individually, or in small groups, rather than as a regiment.

Artificers were civilian or military mechanics and artisans employed by the Army to provide necessary services. Artificer companies included carpenters, blacksmiths, wheelwrights, harness makers, coopers, nailers, and farriers.

History of the War Department Collection of Revolutionary War Records

Most of the records of the American Army in the custody of the War Department were destroyed by fire on November 8, 1800. The War Department Collection of Revolutionary War Records was begun in 1873 when Secretary of War William Belknap made the first of several purchases of Revolutionary War records for the Department. By War Department orders of July 3 and 16, 1889, a Record and Pension Division was established to take custody of the military records of the Volunteer Armies of the United States and to

*transact the pension and other business of the Department connected with those records. The Division was designated the Record and Pension Office of the War Department by an act of May 9, 1892 (27 Stat. 27), and Col. Fred C. Ainsworth became Chief of the Office. At Ainsworth's instigation, Congress passed acts on July 27, 1892 (27 Stat. 275), and August 18, 1894 (28 Stat. 403), that directed the other executive departments of the Federal Government to transfer military records of the Revolutionary War in their possession to the War Department. The last major addition to the collection was in 1914-15 when the War Department made photographic copies of Revolutionary War records in the possession of individuals and institutions in several States to supplement the original records.

Compiled Military Service Records

The compilation of military service records from the War Department Collection of Revolutionary War Records was begun in 1894 under the direction of Colonel Ainsworth. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts and the indexes were accurate.

The service records consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit or special corps in which he served. The jacket-envelope contains card abstracts of entries relating to the soldier as found in original muster rolls; payrolls; rank rolls; inspection, provision, and clothing returns; receipts for pay and bounty; accounts for subsistence, pay, rations, clothing, and ordnance; abstracts of muster and pay rolls; and correspondence. Abstracts were also made from 24 of the numbered record books in the War Department Collection of Revolutionary War Records, Volumes 1-11, 13 1/2, 136 1/2, 139, 142, 143, 145, 147, 1/2, 170-173, 175, and 176. There are cross-references for soldiers' names that appeared in the records under more than one spelling.

Frequently preceding the jacket-envelopes for individual soldiers in each organizational unit are similar envelopes containing caption cards for muster rolls, payrolls, or other records. The cards show the exact captions of documents that were copied for each organization and the certificates of officers verifying the accuracy of the records. Jacket-envelopes for general pay abstracts precede those for other caption cards, and printed caption cards for general pay abstracts usually reproduce the entire pay abstract. Jacket-envelopes with caption cards for an entire regiment precede those containing caption cards for the field and staff and individual companies.

The compiled service records are arranged under the designation "Continental Troops" or a State name, thereunder by organization, and thereunder alphabetically by soldier's surname. The

military organizations designated "Continental Troops" were generally State units adopted by the Continental Congress in the first years of the Revolutionary War or units raised in more than one State. Regular units of the Continental Army that were raised in only one State are generally listed with that State's military organizations.

The organizations for the Continental Troops and for each State are arranged in two major groups, according to the size of the organization. The larger military units, including regiments, battalions, detachments, corps, brigades, and legions, precede the smaller units, such as companies, parties, troops, or commands. Companies, parties, troops, or commands, however, that were an integral part of larger organizations are generally arranged within the larger organizations. Within the two major groups according to size, units with numerical designations precede units with nominal designations. Thus, the arrangement of the compiled service records for South Carolina organizations is as follows: First Regiment - Sixth Regiment, Casey's Regiment - Thomson's Regiment, First Company - Third Company, and Butler's Company - Captain Michael Watson's Company.

An appendix to this introduction lists the units of the Continental Troops and of each State in three categories: all units with numerical designations, all units with nominal designations, and miscellaneous units. Organizations with both numerical and nominal designations are listed under both categories but are arranged on microfilm according to the number designation. When several organizations have the same number designation, an alphabetical order is followed with battalions, corps, and detachments preceding regiments, and artillery regiments preceding infantry regiments and regiments of light dragoons.

Because the military units of the Continental Army were frequently reorganized, there are sometimes several series of compiled service records for the different formations of a unit, all bearing the same name or number designation. When the records for each formation are maintained separately, the year the formation was organized is sometimes included, in parentheses, in its title. The Connecticut records, for instance, include a "Seventh Regiment (1775)" and a "Seventh Regiment (1776)."

When a consolidation of several regiments was made, the new organization was sometimes labeled with the designations of the several regiments involved. An example is the Virginia organization designated the "Fourth, Eighth, and Twelfth Regiment." The compiled service records for several Virginia consolidated regiments contain empty jacket-envelopes labeled with the names of the soldiers in the regiment and the locations of the jacket-envelopes containing all the card abstracts for those soldiers.

Military organizations without a number or name designation are arranged at the end of the series to which they belong. Thus, the Regiment Extraordinary (Maryland) is placed at the end of the alphabetical series of Maryland regiments. Miscellaneous smaller organizations, such as the Field Artillery Company (New Hampshire), are arranged at the end of the alphabetical series of companies for New Hampshire.

Soldiers' names that are incomplete due to the mutilation or deterioration of the original records are arranged at the end of the compiled service records for their units. Soldiers, employees, or other personnel of the American Army with only a first name in the original records are listed by that name in the compiled service records.

At the end of the records for the Continental Troops is a series labeled "Miscellaneous," consisting of compiled records of soldiers' names that cannot be identified with a particular military unit. The series also includes high-ranking officers of the American Army who were associated with many military organizations. Likewise, a miscellaneous series labeled merely with the States's name exists at the end of the records for each State, except Georgia, to serve a similar function. For instance, the series labeled "Pennsylvania" was taken from such records as a list of officers who were paroled prisoners on Long Island, a list of prisoners from different regiments in General Wayne's division, a "Return of the Pennsylvania Line, entitled to donation lands, reported by the late Comptroller General," and an account book entitled *The State of Pennsylvania Against the United States for Depreciation on Pay of the Army*.

The designations of military units in this microfilm publication are generally reproduced exactly as they appear on compiled service records and on index cards.

Indexes

Within Record Group 93, several name indexes contain entries from the military service records reproduced in this microfilm publication. The most comprehensive name index to the records is available as National Archives Microfilm Publication *General Index to Compiled Military Service Records of Revolutionary War Soldiers* (M860). Various parts of the General Index are also available separately as follows: *Index to Compiled Service Records of Revolutionary War Soldiers Who Served With the American Army in North Carolina Organizations* (M257); *Index to Compiled Service Records of American Naval Personnel Who Served During the Revolutionary War* (M879); and additional unpublished indexes to the names of soldiers serving in organizations from the States of Connecticut, Delaware, Georgia, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, South Carolina, Vermont, and Virginia.

Related Records in the National Archives

Although some references to employees, prisoners of war, and other persons associated with the American Army are included in the records reproduced in this microfilm publication, most of the Revolutionary War compiled service records for persons other than soldiers have been published as *Compiled Service Records of American Naval Personnel and Members of the Departments of the Quartermaster General and the Commissary General of Military Stores Who Served During the Revolutionary War* (M880).

The original records and copies of records from which the Revolutionary War compiled service records were made are available on *Revolutionary War Rolls, 1775-1783* (M246), and *Numbered Record Books Concerning Military Operations and Service, Pay and Settlement of Accounts, and Supplies in the War Department Collection of Revolutionary War Records* (M853). Notations in the lower left corner of the card abstracts frequently indicate the file or volume number of the original record copied.

Notations on card abstracts also sometimes refer to numbers preceded by the initials "R & P." These references are to file citations in the general correspondence of the Record and Pension Office of the War Department, in the Records of the Adjutant General's Office, 1780's-1917, Record Group 94. The index to this correspondence series is available as *Index to General Correspondence of the Record and Pension Office, 1889-1904* (M686).

Pension and bounty land warrant application files based on the service of Revolutionary War military and naval personnel are in the Records of the Veterans Administration, Record Group 15. They have been reproduced as *Revolutionary War Pension and Bounty-Land-Warrant Application Files* (M804), and *Selected Records From Revolutionary War Pension and Bounty-Land-Warrant Application Files* (M805).

The War Department Collection of Revolutionary War Records, Record Group 93, contains two other publications relating to the American Army: *Miscellaneous Numbered Records (The Manuscript File) in the War Department Collection of Revolutionary War Records, 1775-1790's* (M859), and *Special Index to Numbered Records in the War Department Collection of Revolutionary War Records, 1775-1783* (M847). The record group also contains other series of unnumbered record books and photographic copies of some State records.

Journals, correspondence, and other records of the Continental and Confederation Congresses are among the Records of the Continental and Confederation Congresses and the Constitutional Convention, Record Group 360. These records have been microfilmed as *Papers of the Continental Congress, 1774-1789* (M247), and *Miscellaneous Papers of the Continental Congress, 1774-1789* (M332).

International and Indian Treaties are among the General Records of the United States Government, Record Group 11, and the Indian treaties have been reproduced as *Ratified Indian Treaties, 1722-1869* (M668). Ledgers and other fiscal records of the Government of the Revolutionary War period are among the Records of the Bureau of Accounts (Treasury), Record Group 39; the Records of the Bureau of the Public Debt, Record Group 53; the General Records of the Department of the Treasury, Record Group 56; and the Records of the United States General Accounting Office, Record Group 217.

These introductory remarks were written by Marie Allen.

Respectfully returned to

Mr. L. S. Gwyn,
614 Reservoir Street,
Baltimore, Md.

Nothing has been found of record in this Department to show that a person bearing the name John Sedgwick served as a general in the War of the Revolution.

The principal items of the military record of one John Sedgwick who served as a captain in the 4th Connecticut Regiment as a major of Burrall's Continental Regiment, as major of the 7th Connecticut Regiment and as lieutenant-colonel of Connecticut Militia, are published in Heitman's Historical Register of Officers of the Continental Army, an unofficial publication entitled to credit, which can be consulted in almost any large public library.
